## EXECUTIVE SUMMARY

Nisos researchers discovered Indonesian disinformation actors pretending to be associated with U.S. military organizations. These actors were taking actions designed to stir tensions against China including exaggerating events and attempting to produce inflammatory headlines.

Nisos researchers identified 51 YouTube channels, 15 Facebook pages and groups, and 7 Instagram accounts producing disinformation related to United States and Chinese tension within the South China Sea. The YouTube channels describe themselves as news channels related to the U.S. military and feature automated voices reading English-language scripts. Graphics and military footage are included in the videos. The tone of the commentary is anti-China and pro-U.S. The campaign appears to target English-speaking individuals in Southeast Asia. The content is designed to appeal to military enthusiasts by including information about weaponry, technology, aircraft, and ships.

Nisos' assessment concludes this disinformation effort is being conducted by a minimum of three individuals. Research indicates these individuals are based in Indonesia and are motivated by financial gain. Nisos was able to attribute the real identities of three individuals and determine they have been conducting pro-U.S. military activities for approximately two years.

- Many of the YouTube channels appear to have been taken over or purchased, in an attempt to obfuscate the ownership of the channel and to capitalize on existing viewership. It is likely the accounts are controlled by Indonesian actors.

Several of the YouTube channels and associated Instagram accounts pose as official U.S. military-owned or operated accounts or imply US-based ownership. “The US Military Today” YouTube channel claims to be managed by the Air Force Public Affairs agency, and the `militaryvideos_` Instagram account uses the official U.S. Defense Department, Defense Media Activity logo as its profile image. Nisos was unable to verify any legitimate connection to these military organizations.

Nisos researchers identified three individuals, Aidia Andora MJ, Sarfandi, and Muhammad Iqbal, as the owners of the YouTube channels. The three actors are financially motivated, and Aidia MJ and Sarfandi both offer Google AdSense accounts for sale. Aidia Andora MJ has been active on YouTube since at least 2017 and has had prior channels terminated.

The two individuals are most likely associates, as one of the channels owned by Muhammad Iqbal, US Defense Videos (`youtube[.]com/channel/UCe7QZrrNKeaxbagz66-4LsQ/`), features some of the same video content that appears on Aidia MJ's channels. According to a Patreon membership page for artists and creators, tied to Aidia MJ, he is part of a “small team consisting of 8 creative young people” who are “trying to develop video content about military, defense and geopolitics.”<sup>1</sup>

<sup>1</sup> <https://www.patreon.com/MilitaryTv>

Nisos researchers are able to attribute several of the YouTube channels to a third individual called Sarfandi, who is a YouTube video publisher and associate of Aidia MJ.<sup>2,3</sup> Sarfandi not only is connected to Aidia MJ on social media platforms, but also shares at least 54 mutual friends and some profile interactions. Sarfandi appears to be the publisher of several of the previously identified YouTube channels sharing sensationalized headlines. Sarfandi also appears to sell Google AdSense accounts and previously listed these for sale on his personal Facebook account.<sup>4,5,6,7,8</sup> It is unclear whether Aidia MJ and Sarfandi are working together.

# POLITICAL CONTENT

The 51 YouTube channels focus on the U.S. military, its weapons, technology, and U.S. tensions with China in the South China Sea. Many of the video titles and descriptions appear to exaggerate or misrepresent legitimate news stories. Inflammatory headlines include: “High Alert! WW3 Begins!,” “WW3: China ‘ready’ for conflict with US over Taiwan row,” and “China Shocked: US Navy Destroy China Warships in South China Sea Amid pandemic.”<sup>9,10,11</sup>

## CLAIMS OF ASSOCIATION WITH THE U.S. MILITARY

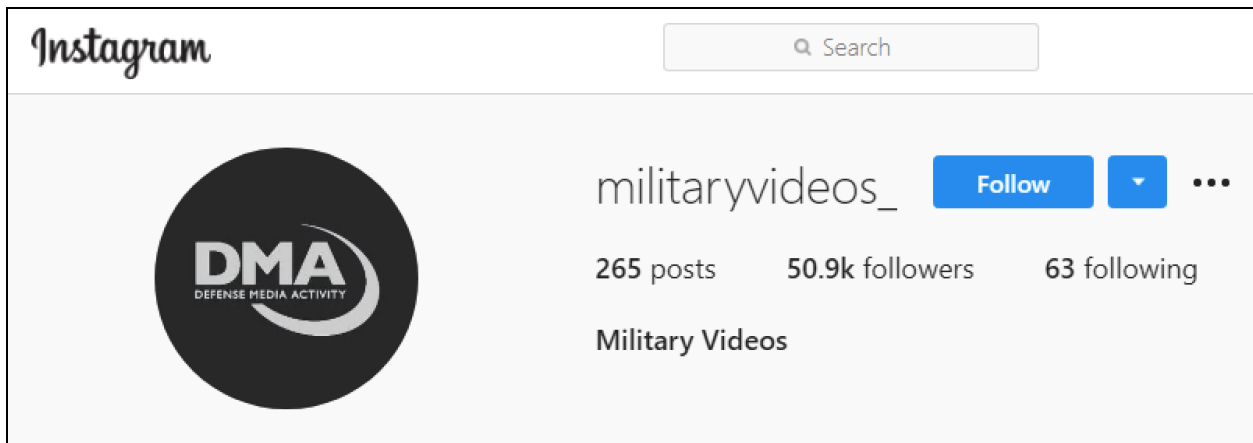

Two of the YouTube channels associated with this network either claim official association with the U.S. military, or imply that the owners are from the United States by using the statement “we as a nation.” In addition, two of the associated Instagram accounts use the official Defense Media Activity (dma[.mil]) logo as its profile image or claim to be an “official” source for U.S. military-related news.

Graphic 4: The US Military Today verified channel states in its description that it is “managed by the Air Force Public Affairs Agency,” <https://www.youtube.com/c/USMilitaryToday/about>

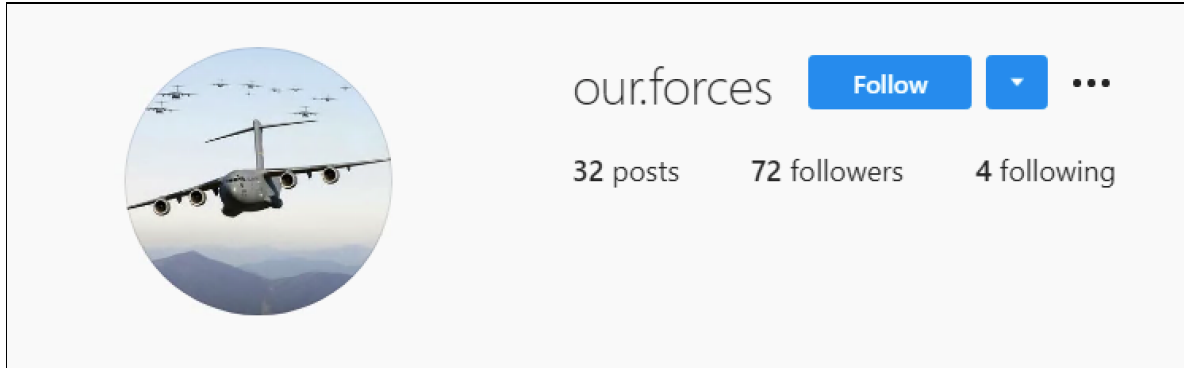

Graphic 5: Voice of Military Youtube channel describes itself as an “initiative” providing a platform for “veterans, service members, and military families to share their stories. In doing so we honor their voice, amplify their experiences, and let them know that we – as a nation – are listening,” <https://www.youtube.com/channel/UCtpyK1T94CGn9rg8mXbZWNg/about>

Graphic 6: militaryvideos\_ Instagram account uses the official Defense Media Activity (dma.mil) logo for its profile image, [https://www.instagram.com/militaryvideos\\_/](https://www.instagram.com/militaryvideos_/). This account follows Aidia Andora MJ’s personal Instagram account.

## INAUTHENTIC BEHAVIOR

Several characteristics led Nisos to conclude these channels display inauthentic coordinated behavior. Many of the channels’ creation dates precede the first video posted date by significant periods of time; moreover, the earliest videos on the channels display content of a nonpolitical, nonmilitary nature, suggesting the ownership of the channels changed.

Graphic 7: The nature of the video content on the 4KEY MILITARY NEWS YouTube channel changes from focusing on Indonesian traditional music and dance to U.S. military aircraft and military news, [https://www.youtube.com/channel/UCx5Yz\\_hhBK0mu8SBhUV-xjQ/](https://www.youtube.com/channel/UCx5Yz_hhBK0mu8SBhUV-xjQ/).

**Graphic 8: The nature of the video content on the US Military Source YouTube channels originally focused on internet banking, <https://www.youtube.com/channel/UCNVh5BmRttVnRPVnNhMKUSw/videos>**

In addition, the Facebook pages associated with these YouTube channels have changed their names over time and were originally created as unrelated pages. An examination of Facebook pages associated with some of the YouTube channels indicates the channel operators may be targeting military enthusiasts by creating, taking over, or possibly purchasing Facebook pages related to military aircraft, “Parade Military,” and military-related video games. Upon procurement of the pages, the operators then change the content of the pages to focus on U.S. military news. The channels are operated by a small number of individuals from Indonesia.

## AIDIA ANDORA MJ

Nisos identified and researched several of the channel creators. Aidia MJ is the owner of the Military TV and Defense TV YouTube channels.<sup>1213</sup> He also appears to manage a domain associated with the Defense TV channel, defense-tv[.]com. This is a blog focused on military weapons and geopolitical developments, including a post evaluating Iran’s military power.

Aidia resides in Banda Aceh, Indonesia. He is a real estate agent and was educated as a scientific diver. Aidia MJ’s personal Facebook profile states that he is a “Publisher” at Google AdSense.<sup>14</sup> According to his personal blog, he maintains multiple other blogs and “education-related websites.”<sup>15</sup> Based on an analysis of shared video content, overlapping channel subscriptions, and matching channel descriptions, Nisos believes Aidia Andora MJ may also operate the following channels:

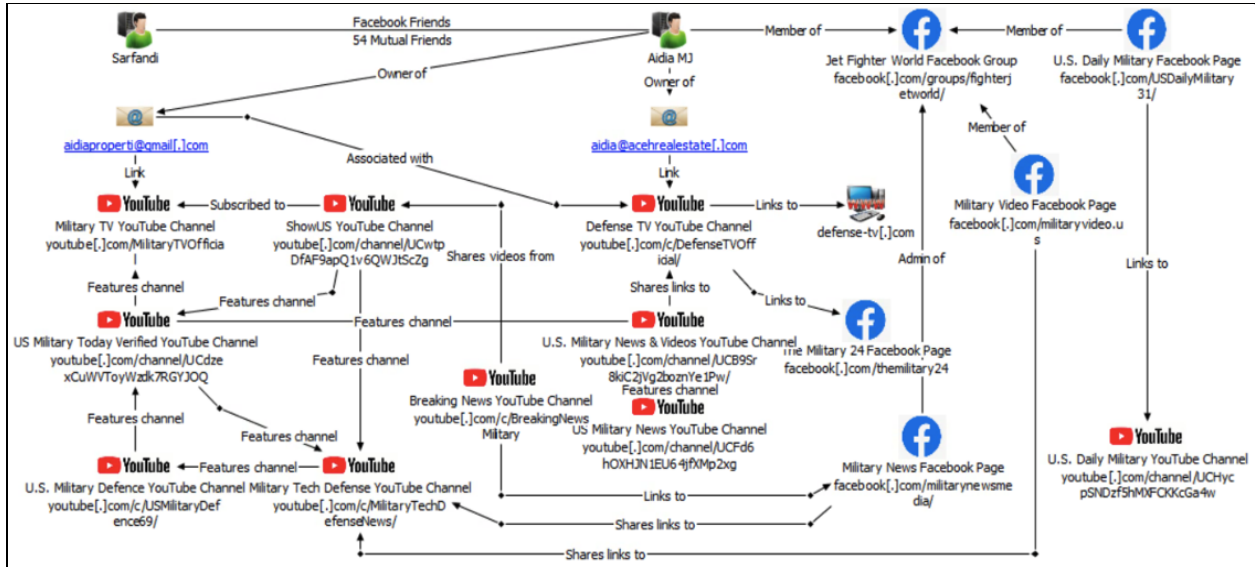

- Defense TV YouTube Channel (youtube[.]com/c/DefenseTVOfficial)
- Military TV YouTube Channel (youtube[.]com/MilitaryTVOfficial)

Analysis of Aidia MJ’s social media profiles found that he frequently makes posts about world news events, militaryTV content, and his own YouTube channels. His profile contains screenshots of his past YouTube channels, which also feature military news. The screenshots indicate that he has previously owned unrelated YouTube channels where he posted videos pertaining to the U.S. military. A number of Aidia MJ’s YouTube channels have been terminated.

# SARFANDI

Sarfandi is a YouTube video publisher and Google AdSense account seller. He is an admin of the US Military Post public Facebook group, which is also linked with the US Military Post Facebook page.<sup>16</sup> Sarfandi’s associated Facebook pages and YouTube channels are sharing sensationalist videos and content related to South China Sea tensions. Nisos assesses Sarfandi is primarily a financially motivated actor given his history of selling AdSense accounts since at least 2017. While he shares 54 mutual Facebook friends with Aidia MJ, the nature of their relationship is unclear regarding whether they are working together to create content on YouTube, or if Aidia MJ has potentially purchased any Google AdSense accounts from Sarfandi.
